

Linda Longoria was born in Beaumont, Texas, but has lived in San Jose, California and Grants Pass, Oregon most of her life. She has worked in various administrative positions in grammar school, high school, and universities for thirty years. While working, she earned a B.S. in Anthropology from Santa Clara University and an M.A. in Anthropology from The University of Texas at San Antonio. Both degrees are with an emphasis in archaeology. Her research interests and field work are in the archaeology of native American and Spanish colonial contexts.

Since 2003, Linda has been the assistant to Christopher Field, the founding director at Carnegie Institution for Science's Department of Global Ecology. In addition to her administrative work, she has copy edited several books and journal articles.
